

Standing L to R : Marty Hill (Guitar), Mark Hill (Drums/Vocals), Michael Hough (Guitar & Vocals), Rich Barefoot (Bass/Vocals); Sitting Joey Bishop (lead vocals)

The excitement and fun are back in live music with the **Carolinas' Favorite American Band**.....**SUPERGLIDE** !

Formed in January 1998, this power house quintet decided they wanted to give audiences something different, unique and most of all....fun ! And that they have ! It's no wonder why they quickly became one of the Carolinas' top drawing groups with their unique brand of the hits of the seventies & eighties. Comprised of top seasoned professionals and former members of some of the east coast's most popular touring acts, including The Creek (Sugarcreek), Hard Charlie, Phantom Park and Crosswind. With the powerful guitars of **Michael Hough** and **Marty Hill**, backed with the driving rhythm of **Mark Hill** on drums and **Rich Barefoot** on bass, musically this band is on top. Now combine that with the dynamic lead vocals of **Joey Bishop**, supported by those incredible harmonies of Michael, Mark & Rich. It's one of those great combinations you rarely see, but when you do you know without a doubt it's something very special that you have to see and hear again and again.

SUPERGLIDE understands that audiences want to have a good time, they want a fun, exciting and entertaining show full of great music. That is exactly what **SUPERGLIDE** is bringing their audiences plus much, much more. Memorable fun loving music from the seventies & eighties that gets your blood pumping, your heart pounding and makes everyone want to get up and dance. You can't help but have a good time! As one fan said "you always know you're going to have a "great" time at a SuperGlide show". Their love for the music and bringing it all to the people comes across in each and every performance. It's no wonder why they have been setting attendance records all over. To quote one business owner, "they are the best band I've seen in a long time, very polished professional, they really know how to entertain an audience". Because of these qualities, SuperGlide has been fortunate to open for such national artists as Rick Springfield, BTO, Cheap Trick, The Little River Band and The Doobie Brothers.

Great songs, incredible vocals & harmonies and one exciting entertaining performance. These five professionals will give you a show that's both fun and memorable, one like you've never heard or seen before. It's definitely a great time you don't want to miss!
